PORTFOLIO mattericsson.com

Hello,

I am a front-end web designer and developer dedicated toward creating both effective and quality applications for an exciting user experience.

ARE YOU HIRING?

I am looking for freelance opportunities.

EXPERIENCE

Summit Athletic Media | Charlotte, NC

Web Developer | JUNE 2016-PRESENT

- + Responsible for both designing and translating mockups into quality, interactive websites using Bootstrap, HTML5, SCSS, JavaScript, jQuery and PHP
- + Responsible for providing ongoing maintenance to 50+ active websites and working directly with clients to ensure project demands are being met
- + Discovering and implementing ways to increase project development efficiencies
- + Devising alternative ways for clients to utilize easy-to-use, lightweight CMS if they do not want full control over the product while still being able to work within a static environment

Barshark | Orlando, FL

CTO | Web/Mobile Design & Development | MAY 2015-SEPTEMBER 2016

- + Startup company formed by a handful of University of Central Florida graduates
- + Developed a hybrid mobile application using Framework 7
